

Our hook for learning

The Bug Man will be visiting us on 20th September. He will be bringing in a range of insects and bugs for us to look at and hold.

English

We will be learning to write fact files about bugs and insects. We will be looking at different words to describe their appearance, how they move and where they live.

Maths

In maths this half term we will be learning about...

- Place value
- Addition
- Subtraction
- Ordering numbers using these symbols < > =
- Number facts to 10
- Number facts to 20

Design Technology

We will be making a minibeast model using a range of materials. We will be investigating how to join these materials and how we can twist and shape materials to make them stronger.

Art

We will be making a minibeast collage of our favourite bug brought in by the Bug Man. We will carefully look at the details of our chosen bug and recreate the bug using different materials and textures.

It's a Bug's Life!
Year 2
Autumn 1 2018
(7 weeks)

Science

In science we will be learning about the different microhabitats that minibeasts live in. We will also be learning about how animals are suited to the habitats they live in.

Our learning outcome

We will be hosting a bug exhibition where we will showcase all of our learning for this topic. Parents will be invited to attend the exhibition **after school on Friday 19th October.**
