

## Elson Infant School Curriculum Intent

Is fully inclusive so all pupils can fully engage with and is accessible to every pupil

Explore first hand a range of technologies such as programmable toys, software programs and online tools

Equip children with the skills to become digitally literate in order to participate in the rapidly changing world where work and leisure are increasingly transformed by technology.

Learn the importance of staying safe online and who they can go to for support

Our Computing curriculum enables our children to SHINE by...

Promotes opportunities to use ICT to develop their own ideas

Encourage children to become active participants in a digital world

Apply knowledge and skills which encourage children to express themselves

Provides opportunities for children to solve problems using ICT and become computational thinkers
