

Elson Infant School-Our Travel Map

We think that our Travel Plan will help:

- To keep our local area clean and preserve the environment.
- To keep the roads near the school safer and pedestrian friendly by reducing traffic.
- To encourage us to walk, cycle or scoot to school to help keep us fit and health and road aware.

Our parents and children will help us by:

- Supporting us with walking, scooting or biking to school. This does not have to be the whole way, even a little way really helps.
- Making sure we wear our helmets.
- Walking us onto site and keeping us to the paths so we are nowhere near travelling cars.
- Parents parking safely close to our school and not mounting the pavements.
- Parents not walking children through the car parks.

Let's Walk to School

Our school will help by:

- Giving us opportunities to take part in walk to and scoot to school weeks.
- Providing spaces for us to keep our bikes and scooters safe.
- Ensuring our site is safe when contractors come to visit us.
- Ensuring our site is well maintained so that we are safe when accessing site and there are no trip hazards.
- Making sure there is clear signage to help us access our site.
- Ensuring cars do not speed on site.
- Providing disabled parking for parents and children who need this.

Any contractors or site visitors will help us by:

- Letting us know they are on site so we can send out spotters to help them park and keep our children safe.
- Following our speed limits and one way systems.
- Not blocking emergency vehicle access routes.
- Liaising with our school about the best times for drop off and pick up.

Elson Infant School—Our Travel Plan
